# CUMULATIVE INDEX 1992

**Volume 27**

| | |
|---|---|
| March | INNOVATIVE SYSTEMS FOR PROVIDING ACUTE NURSING CARE, pages 1–140 |
| | CORONARY ARTERY DISEASE, pages 141–288 |
| June | NURSING INTERVENTIONS, pages 289–602 |
| September | LUNG CANCER, pages 603–702 |
| | OPHTHALMIC NURSING, pages 703–820 |
| December | WOMEN'S HEALTH, pages 821–1004 |

*Note:* Page numbers of article titles are in **boldface** type.

Acquired immunodeficiency syndrome, in older women, **937–947**
  clinical and research implications of, 946, 947
  primary prevention strategies for, 940–943
  risk reduction objectives for, 939
  secondary prevention strategies for, 943–945
  tertiary prevention strategies for, 945, 946
Activity and movement intervention studies, 539–549
  findings and discussion of, 542–549
  instrument in, 541
  label development in, 539–541
  methods in, 539–542
  sample and procedures in, 541, 542
Activity intervention labels, 551
Activity processes, 537–539
Activity therapy, 544, 555, 556
Airway maintenance, 306, 312, 313
Alcohol and coronary artery disease, 162
Alcoholism, history of knowledge and beliefs about, 918, 919
  in women, 919, 920
    identification of, **917–924**
  nurse as gatekeeper in, 920–923
Analgesic administration, 360, 361
Angina, 148, 149, 205–207
  management of, beta blockers in, 214–219
    calcium entry blockers in, 215, 220–223
    combination drug therapy in, 221, 224
    coronary artery angioplasty in, 224, 225
    coronary artery bypass surgery in, 226, 227
    exercise training in, 207, 209
    laser angioplasty in, 225, 226
    lifestyle changes in, 209–211
    long-term, **205–227**
    myocardial revascularization in, 224–227
    nitrates in, 211–214
    nitroglycerine in, 211
    nonpharmacologic, 207–211
    pharmacologic, 211–224
Angioplasty, laser, 225, 226
  percutaneous transluminal coronary. See *Percutaneous transluminal coronary angioplasty.*
Anorexia in lung cancer, 617, 618, 696, 697
Aortic dissection, 175
Aspiration precautions, 340, 341
Atherosclerosis and coronary artery disease, 143–146
Auscultation, 306, 313, 314

Bach, Johann Sebastian, 711
Battered woman, pregnant, **871–883**
Behavior management for neurologic patients, 343, 344
Beta-blockers for stable angina, 214–219
Birth center, collaborative model of, **99–106**
  collaboration in, 104
  genesis of, 100, 101
  innovation in, 102, 103
  philosophy of, 101, 102
  quality in, 104, 105
  setting of, 99, 100
Blindness, attitudes toward, 712, 713
  incidence of, 705
  major causes of, 807, 808
  nutritional, 813, 814
  worldwide, **807–816**
    nursing diagnoses in, 815
Body alignment for neurologic patients, 345, 346
Body mechanics promotion, 548, 549, 564
Bowman, Sir William, 711, 712
Breast cancer, **821–831**
  age at first pregnancy and, 825, 826
  chemoprevention of, 829, 830
  diet and, 827, 828
  early detection of, 828, 829
  estrogen replacement therapy and, 824
  family and personal health history in, 822, 823
  infertility or nulliparity and, 826
  lactation and, 827
  nursing implications in, 836, 837
  oral contraceptives and, 824, 825
  radiation exposure and, 823
  risk factors for, 822–828
    demographic, 822
    menstrual and reproductive, 823, 824
  tamoxifen and, 829, 830
  vitamin A and, 836
Bronchoplastic reconstruction in lung cancer, 674

Calcium, dietary, in women, 974–976
Calcium entry blockers for stable angina, 215, 220–223
Cancer. See also specific types, e.g., *Lung cancer*.
  seven warning signals of, 604, 605
Cardiac care, 461
  acute, 462
  rehabilitative, 463
Cardiac catheterization, 185, 186
Cardiomyopathies, 150, 151
Caregiver support, 521, 532
Carondelet St. Mary's nursing enterprise, **77–85**
  community health centers and, 80, 81
  nurse case management in, 79, 80
  nursing health maintenance organization and, 82–84
  nursing network in, 79
  professional practice model in, 78
Case management, 122–124
Cataract(s), 808, 809
  clinical presentation of, 728
  diagnosis of, 728–730
  nursing care of, **727–742**
  nursing diagnoses in, 735
  nursing interventions in, 735–742
    at initial office visit, 735, 736
    perioperative, 738, 739
    postoperative, 740–742
    preoperative, 736–738
  phacoemulsification of, 731, 732
  planned extracapsular extraction of, 731
  treatment of, 730–733
    case study of, 733, 734, 808, 809
    complications in, 732, 733
Cerebral edema management, 337, 338
Cervical cancer, chemotherapy for, 851
  course of, 849
  epidemiologic factors in, 848
  fear of recurrence of, 853
  four-stage model of adjustment to, 854, 855
  holistic care of, **847–857**
  nursing implications in, 854–856
  overview of, 847, 848
  patient misconceptions about anatomy and physiology in, 852
  psychologic impact of, 851
  radiotherapy for, 851
  signs and symptoms of, 848, 849
  staging of, 849, 850
  treatment of, 850, 851
    side effects of, 852, 853
    surgical, 850, 851
Chest pain, assessment of, 172–175
  differential diagnosis of, 175, 176
  in lung cancer, 618
Cholesterol and coronary artery disease, 155–159
Choroidal melanoma, **777–789**
  clinical presentation of, 778, 779
  nursing diagnoses in, 786, 787
  nursing interventions in, 787, 788
  treatment of, 779
    case study of, 779–785
Choroidal nevus, 791
Cigarette marketing, 636
Cigarette smoke, carcinogenesis of, 633
Cigarettes, low-yield, 637
Circulatory care, 465
  bleeding precautions in, 456, 457
  bleeding reduction in, 457, 458
    from wounds, 460

gastrointestinal, 458, 459
nasal, 460
cardiac precautions in, 464
circulatory precautions in, 466
embolus precautions in, 469
hemodynamic monitoring in, 470
hemodynamic regulation in, 471
hemorrhage control in, 472
intervention labels in, 455, 456
peripheral embolus care in, 467
pulmonary embolus care in, 468
shock management in, 472, 473
cardiac, 474
vasogenic, 475
volume related, 476
Circulatory care studies, discussion of results of, 450–453
findings of, 449, 450
literature review in, 445–448
methodology in, 448, 449
procedure of, 448
sample in, 448, 449
Clinical care manager, job satisfaction of, 124
relationship of with primary nurse, 123
role of, 123
selection and orientation of, 123, 124
Clinical care protocols in the intensive care unit, 124–126
Clubbing of fingers in lung cancer, 619
Cocaine-addicted women, **901–915**
acquired immunodeficiency syndrome in, 907, 908
case studies of, 908–910
community model for recovery of, 910, 911
demographic characteristics of, 904–908
family and community support for, 912, 913
health care systm and, 903, 904
motivations for recovery in, 913, 914
Narcotics Anonymous and, 911, 912
physiologic and psychologic sequelae in, 906
support systems in recovery of, 911–914
Cognitive stimulation for neurologic patients, 344, 345
Collaboration, definition of, 47, 48
nurse-physician, 47–58
Collaborative care unit, 50, 51, 52, 53
clinical nurse's view of, 51–53
future directions of, 57, 58
outcomes of, 56, 57
physician's view of, 54–56
Collective bargaining environments, 35, 36
Compliance, patient, 477–479
behavior modification in, 485–487
coping enhancement in, 487–489
intervention labels for, 485
mutual goal-setting in, 489, 490
patient contracting in, 491, 492
self-modification in, 493, 494
Compliance studies, 479–484
discussion of results of, 482, 483
findings of, 481, 482
label development in, 479, 480
methodology of, 479–481
procedure of, 480, 481
sample in, 481
Constipation in lung cancer, 697
Coronary artery bypass grafting, 226, 227, **243–254**
arrhythmias following, 250
cardiac tamponade after, 248, 249
choice of grafts in, 247
complications of, 247–253
indications for, 243–245
myocardial dysfunction after, 247, 248
neurologic dysfunction after, 250
nursing implications in, 253, 254
postoperative bleeding in, 249, 250
postpericardiotomy syndrome in, 250, 251
technique of, 245, 246
Coronary artery disease, age and gender in, 165
alcohol and, 162
angina in, 148, 149
atherosclerosis and, 143–145
behavioral influences in, 148
cardiomyopathies in, 150, 151
causes of, 143–146
cholesterol in, 155–159
in the elderly, 156, 157
clinical manifestations of, 148–151
differential diagnosis of chest pain in, 175, 176
effects of on marital relationship and family satisfaction, 276–278
evaluating patient with, **171–186**
cardiac catheterization in, 185, 186
chest pain assessment in, 172–175
echocardiogram in, 184, 185
electrocardiogram in, 182, 183
exercise tolerance testing in, 183, 184
history in, 171–176
Holter monitoring in, 183
laboratory data in, 180–186
physical examination in, 180
risk factor analysis in, 176–180
family history and, 164, 165
glucose intolerance and diabetes mellitus in, 162, 163
humoral influences in, 148
hypertension and, 145, 146
hypertension in, 159–161
left ventricular hypertrophy and, 147, 163
menopause and, 164

Coronary artery disease *(Continued)*
myocardial infarction and, 149, 150
obesity and weight distribution ..., 161, 162
oral contraceptives and, 163
pathophysiology of, **143–151**
prevention of, 258
activity in, 264
diet in, 262, 263
epidemiologic basis of, **153–165**
hypertension and, 263, 264
in-hospital education and, 265–267
outpatient education and, 267
primary, 258–264
risk factor assessment in, 259–262
secondary, 264–267
smoking cessation in, 263
psychological and socioeconomic factors in, 163
psychosocial adjustments of patients and spouses to, **271–282**
nursing implications in, 279–281
psychosocial profile of patients with, 271–274
psychosocial profile of spouses to, 274–276
race and, 163, 164
risk factors in, 146–148, 153–155, 257, 258
modifiable, 155–163
nonmodifiable, 163–165
nursing interventions for reduction of, **257–267**
sedentary lifestyle and, 161
serum glucose levels and, 147, 148
serum lipid levels and, 147
smoking and, 147
Couching, 710, 711
Cough in lung cancer, 617, 695
Critical care, case management model for, **119–127**
description of, 120, 121
justification of, 121, 122
Critical care unit, designing of, **129–137**
allocation and use of space in, 135
design team for, 131, 132
patient room mockup in, 134, 135
planning for future in, 138
site restrictions in, 135, 137, 138
site visits in, 133, 134
working with architects in, 132, 133
goals and strategies of, 130, 131
Cutaneous stimulation, 362, 363

da Vinci, Leonardo, 711
Daviel, Jacques, 711
Depression, in spouses of lung cancer patients, 684, 685
in women, adolescent, 986, 987
alcohol consumption and, 988
childhood bereavement and, 986, 987
in adult children of alcoholics, 989
in childbearing and childrearing years, 987, 988
middle-aged, 988, 989
nursing considerations for, 991, 992
older, 989, 990
predictors of, **983–992**
societal influences and, 984, 985
stress and, 985
Diabetes mellitus and coronary artery disease, 162, 163
Diabetic retinopathy, **745–759**
clinical presentation of, 748, 749
nursing diagnoses in, 757
nursing interventions in, 757, 758
treatment of, 749–755
case study of, 756, 757
laser, 750–753
surgical, 753–755
types of, 746–748
Diaphragm, paralysis of, in lung cancer, 669, 670
Differentiated group professional practice, **23–29**
differentiated care delivery in, 25, 26
group governance in, 24, 25
intrapreneurship in, 27
overview of, 23–28
shared values in, 26–28
Distraction in pain management, 366, 367
Domestic violence against women, **871–883**
nurses as case finders in, 876, 877
nursing interventions in, 877–883
guidelines for, 878–883
origins of, 872–874
prevalence of, 874, 875
resources on, 882
theoretical frameworks of, 875, 876
Drusen, 766
Dysphagia, after radiation therapy, 649
in lung cancer, 668
Dyspnea in lung cancer, 618, 694, 695

Echocardiogram, 184, 185
Electrocardiogram, 182, 183
Electrolyte management, 579, 580
Embolus, pulmonary, 175
Energy management, 543, 544, 553–555
Environmental comfort measures, 361, 362
Environmental management for neurologic patients, 343

Estrogen replacement therapy. See also *Hormone replacement therapy.*
  breast cancer and, 824
Etoposide for small cell lung cancer, 655
Exercise promotion, 547, 548, 563
Exercise therapy, ambulation and, 546, 547, 561
  balance and, 545, 546, 558
  joint mobility and, 545, 557
  motor control and, 546, 559, 560
Exercise tolerance testing, 183, 184
Eye care for neurologic patients, 346
Eye(s), evil, 706, 707
  in romance, sexuality, and art, 708–710
  magical, 707
  mysticism and, 706–708

Family integrity promotion, 521, 529
Family involvement, 521, 530
Family mobilization, 521, 531
Family process maintenance, 520, 521, 528
Family support, 520, 526, 527
Family therapy, 521, 533
Family-related nursing interventions, 513–516
  labels for, 525, 526
  studies of, 516–523
    data analysis in, 519, 520
    design of, 516, 517
    findings and discussion of, 520–523
    instruments in, 517–519
    methodology of, 516–520
    procedure in, 519
    sample in, 517
Fatigue, radiation-induced, 649
Fluid and electrolyte balance interventions, 565–567
  labels for, 566, 567, 573, 574
Fluid and electrolyte balance interventions, studies, data analysis in, 568, 569
  discussion of, 570
  findings of, 569
  methods in, 567–569
  procedure in, 567, 568
  sample in, 568
Fluid and electrolyte management, 574, 575
Fluid management, 576
Food guidance for women, 976–980
Foscavir, 796, 797

Galen, 711
Ganciclovir, 796, 797
Glaucoma, 810, 811
Glucose intolerance and coronary artery disease, 162, 163
Guided imagery in pain management, 367, 368

Health education, mandate for, 715, 716
Heat and cold application for pain management, 363, 364
Helmholtz, Herman, 711
Hemoptysis in lung cancer, 696
Hispanic community, 107, 108
  health care in, 108–112
  nursing care in, **107–115**
    cultural considerations and, 112–115
    visiting hours and, 113–115
Hoarseness in lung cancer, 618, 668
Holter monitoring, 183
Homeless women, **885–898**
  domestic violence and abuse among, 890, 891
  health clinic for, 895, 896
  medical problems of, 896, 897
  mental illness in, 891, 893
  nurses as teachers of, 897
  nursing care of, 894–898
  poverty and social roles of, 889, 890
  profile of a shelter for, 888, 889
  safety and outreach in shelters for, 897, 898
  substance abuse by, 893, 894
Homelessness, 886–888
Hormone replacement therapy, 963–966
  cancer and, 965
  cardiovascular disease and, 964, 965
  combined, 965, 966
  osteoporosis and, 963, 964
Horner's syndrome, 618, 669
Hospice care, barriers to, 693
  nurse's role in, 694
  philosophy and goals of, 692
  preparation for, 693
Human immunodeficiency virus infection. See also *Acquired immunodeficiency syndrome.*
  biology and pathogenesis of, 925, 926
  clinical presentation of, 795, 796
  demographics of, 926, 927
  in women, **925–934**
    case management of, 931, 932
    clinical manifestations in, 929, 930
    clinical trials for, 933
    home care and hospice for, 933, 934
    mental health services for, 933
    primary care for, 932
    psychosocial considerations in, 930, 931
    substance abuse treatment and, 932
    therapeutic interventions for, 931–934

Human immunodeficiency virus
infection *(Continued)*
nursing care in, **793–804**
nursing diagnoses in, 800
nursing interventions in, 800–804
ocular manifestations of, 793–795
pregnancy and, 927–929
ethical concerns in, 928, 929
treatment of, 796, 797
case studies of, 797–800
Hypercalcemia management, 586, 587
Hyperkalemia management, 583, 584
Hypermagnesemia management, 589, 590
Hypernatremia management, 581, 582
Hyperphosphatemia management, 591, 592
Hypertension and coronary artery disease, 145, 146, 159–161
Hypervolemia management, 577, 578
Hypocalcemia management, 588, 589
Hypokalemia management, 585, 586
Hypomagnesemia management, 590, 591
Hyponatremia management, 582, 583
Hypophosphatemia management, 592, 593
Hypovolemia management, 578, 579

Incisions, surgical, for lung cancer, 674, 675
anterolateral thoracotomy, 674, 675
axillary, 675
median sternotomy, 675
posterolateral thoracotomy, 674
Informatics, nursing, 36–39
Intensive care unit, clinical care protocols in, 124–126
Intracranial pressure monitoring, 338, 339
Iron, dietary, in women, 972–974

Kaposi's sarcoma, ocular, 794, 795
Keratomalacia, 813, 814
Knowledge deficit, about chemotherapy in lung cancer, 659
about diagnostic testing in lung cancer, 625, 626
about surgical resection in lung cancer, 675, 676
in the ophthalmic surgical patient, **715–723**

Label development, principles for, 293–295
Living will, 701
Lobectomy in lung cancer, 673
Lung cancer, acceptance of, 683, 684
adenocarcinoma, 610
anorexia in, 617, 618
anxiety in, 626, 627
asbestos and, 606
bronchoscopy, biopsy, and cytologic studies in, 621, 622
carcinoid, 611
chemotherapy for, **653–661**
myelosuppression from, 659
nausea and vomiting from, 660
nurse's role in, 658–660
nursing concerns in, 658
chest pain in, 618
chest radiography in, 621
classification of, 609–611
clinical presentation of, 607, 608
computed tomography in, 623
cough in, 617
death rates from, 603, 604
depression among spouses in, 684, 685
diagnostic testing in, **615–629**, 620–625
health assessment in, 615–617
dyspnea and wheezing in, 618
epidemiology of, 859–863
euthanasia in, 700
family dynamics and, 688, 689
fear of, 682, 683
financial concerns in, 687
fluoroscopy in, 622, 623
hormonal aspects of, 619
in women, **859–868**
incidence of, 603, 604
inoperability of, 666–672
absolute signs of, 666–669
relative contraindications of, 669–672
knowledge deficit in, 625, 626
large cell, 611
magnetic resonance testing in, 624, 625
mediastinal involvement in, 668, 669
mediastinoscopy in, 623, 624
metals as factor in, 606, 607
neuromyopathies in, 619
non-small cell, 610, 611, 645
chemotherapy for, 656, 657
nursing diagnosis in, 625–629
pain in, 626, 698–700
cause of, 698
ethical issues in control of, 700
measurement of, 698
principles of relief of, 699
pathophysiology of, **603–613**
percutaneous aspiration needle biopsy in, 623
physical examination in, 619, 620
potential for ineffective breathing pattern in, 629
potential for ineffective coping in, 628
potential for infection in, 629
potential for injury in, 628
predisposing factors in, 605–607

prevention of, 863–865
nurse's role in, 865–868
primary complaints in, 617–619
psychosocial implications of, **681–690**
nurse's role in, 684, 685
support groups for, 685, 686
quality of life with, 687, 688
radiation as factor in, 606
radiation therapy for, 644–646
historical background of, 643
nursing diagnoses in, 647–649
procedures in, 646, 647
skin care following, 648
trends in, **643–650**
radon and, 863
small cell, 609, 667
chemotherapy for, 653–656
smoking and, 605, 606, 860–863
sputum cytology in, 621
squamous cell, 610
staging of, 611, 612
stress management in, 686, 687
surgical resection of, **665–678**
nursing considerations in, 675–678
surgical incisions in, 674, 675
types of, 672–675
terminal nursing care of, **691–701**
choosing setting for, 691, 692
symptom control for, 694–698
thoracotomy in, 624
thorascopy in, 624
warning signals of, 605

Macula, 761–763
Macular degeneration, **761–775**
clinical presentation of, 764–768
nursing diagnoses in, 772
nursing interventions in, 772–774
pathophysiology of, 763, 764
treatment of, 768, 769
case study of, 770–772
Massage for pain management, 364, 365
Menopause, chronic disease and, 954, 955
coronary artery disease and, 164
cross-cultural studies of, 953
definition of, 953, 954
"medicalization" of, 952, 953
physiologic changes in, 960–963
women's health clinics and, 955, 956
Midlife, women at, **951–956, 959–968**
Milton, John, 710
Mitral valve prolapse, 176
Monet, Claude, 709, 710
Myelosuppression from lung cancer chemotherapy, 659
Myocardial infarction, 149, 150
causes of, 192, 193
clinical management of, **189–200**
interventional strategies for, 192–197
palliative therapies for, 191, 192
postthrombolysis factors in, 197–200
prehospital delay in, 189–191
thrombolysis in, 193–197
Myocardial revascularization for stable angina, 224–227

Neonatal intensive care units, changes in medical and residency coverage of, 87–89
managed by neonatal nurse practitioners, **87–95**
factors influencing, 87–91
institution of, 93–95
planning for, 91–93
Neonatal nurse practitioner service quality assurance monitor, 97
Neonatal nurse practitioners, 89, 90
Neurologic examination, 327, 328
Neurologic intervention labels, 335
Neurologic intervention studies, findings and discussion of, 331, 332
future directions in, 332, 333
methodology of, 329, 330
sample in, 330, 331
tool development in, 328, 329
Neurologic surveillance, 336, 337
New-wave nursing, **1–9**
Nicotine, 637
Nitroglycerine and nitrates for stable angina, 211–214
Nurse-physician relationship, 48–50
Nursing action words, 299
Nursing informatics, 36–39
and professional nursing practice in collective bargaining environment, 39–41
Nursing interventions, compliance and, **477–484**
defining and validating of, **289–296**
family-related, **513–523**
for fluid and electrolyte balance, **565–571**
for pain, **347–355**
for patient safety, **371–380**
for patient teaching, **397–404**
in activity and movement, **537–549**
in circulatory care, **445–453**
in neurologic care, **325–333**
in parent-infant attachment, **425–432**
in respiratory care, **301–310**
label generation and validation in, 291–293
surveillance and, **495–501**
Nursing practice, restructuring of, 1–9
clinical approach to, 4, 5

Nursing practice *(Continued)*
organizational structure approach to, 4
relationships approach to, 5
systems approach to, 3, 4
work design approach to, 4
Nutrition in women, **971–981**

Obesity and coronary artery disease, 161, 162
Onchocerciasis, 811, 812
Oophorectomy, prophylactic, 841, 842
Ophthalmology, evolution of, 710–712
Oral contraceptives, breast cancer and, 824, 825
coronary artery disease and, 163
Osteoporosis, 963, 964
Ovarian cancer, **835–844**
dairy products and, 836, 837
dietary factors in, 836, 837
familial risk in, 840, 841
incessant ovulation and, 837, 838
pelvic examination for, 838, 839
prophylactic oophorectomy and, 841, 842
risk factors in, 835–838
screening for, 838–840
symptoms of, 843, 844
talcum powder use and, 836
tumor markers in, 839
ultrasonography in, 840
Oxygen therapy, 306, 314, 315

Pain, in lung cancer, 698–700
cause of, 698
ethical issues in control of, 700
measurement of, 698
principles of pain relief for, 699
intervention labels for, 357
Pain management, 358, 359
gate control theory and, 348
literature review in, 347–349
Pain management studies, findings and discussion of, 351–354
instrumentation in, 350, 351
methodology of, 349–351
sample in, 349
Pancoast's tumor, 618, 669
Parent education about adolescents, 522, 535, 536
Parent-infant attachment, 425–427
environmental structure in, 437, 438
family integrity and, 438–440
lactation management and, 440, 441
parent education and, 442
promotion of, 435–437
labels for, 435
risk identification in, 443
Parent-infant attachment studies, findings and discussion of, 429–431
instrument and survey in, 428, 429
methods in, 427–429
Patient monitoring. See *Surveillance*.
Patient participation in health care, **61–74**
concept of, 61, 62
implementation of, 66–73
planning of, 62–66
research on, 74
Patient safety, anger control and, 391, 392
area restriction and, 390, 391
crisis intervention in, 395
environmental management and, 385
fall prevention and, 385, 386
intervention labels for, 383, 384
limit setting in, 394
physical restraint and, 388, 389
reality orientation in, 392, 393
seclusion and, 389, 390
surveillance and, 384
violence prevention and, 387
Patient safety studies, anger control in, 374
area restriction in, 374
crisis intervention in, 375
data analysis and findings in, 378, 379
discussion of results of, 379
limit setting in, 375
literature review in, 372–375
methodology of, 376–378
physical restraint and seclusion in, 373, 374
reality orientation in, 374, 375
sample in, 376, 377
surveillance and environmental management in, 372, 373
tool development in, 377, 378
Patient teaching, about disease process, 413, 414
about prescribed activity or exercise, 419, 420
about prescribed diet, 418, 419
about prescribed medication, 417
about procedure or treatment, 416
about sexual activities, 421, 422
and readiness to learn, 399
anticipatory guidance in, 422, 423
as nursing process, 716
group, 398, 412, 413
learning facilitation, 409, 410
learning readiness enhancement in, 408, 409
literature review of, 397–400
of individuals, 410, 411
of psychomotor skills, 420, 421
preoperative, 414, 415
Patient teaching intervention labels, 407

Patient teaching studies, discussion of, 401–403
  further research and, 403
  implications of for practice, 403
  methods and samples in, 400, 401
  results of, 401
  survey development in, 400
Patients and the learning process, 716, 717
Percutaneous transluminal coronary angioplasty, 224, 225, **231–241**
  complications of, 236, 238
  equipment for, 234, 235
  history of, 231, 232
  indications for, 232, 233
  nursing care for, 240, 241
  prognosis and long-term results of, 238–240
  technique of, 235, 236
Pericarditis, 175, 176
  radiation-induced, 648, 649
Pleural effusion in lung cancer, 669, 670, 671
Pneumonectomy in lung cancer, 672, 673
Pneumonitis, radiation, 648
Political economy of illness, 864
Power of attorney for health care, 701
Preoperative patient education program, 717–722
  case study of, 721, 722
  content of, 718, 719
  planning of, 718
  presentation of, 719, 720
  timing of, 720
  value of, 717
Preoperative preparation, value of, 716
Prinzmetal's angina, 149
Professional practice model, 32–35
  integration of with informatics in collective bargaining environment, **31–44**
    strategies for, 41–43
Pulmonary management, 306, 315, 316
Pulmonary osteoarthropathy, hypertrophic, 618, 619
Pulmonary toilet, 306, 307, 316

Radioactive sources, 644
Relaxation therapy in pain management, 369
Reperfusion following thrombolysis, signs of, 197
Resection in lung cancer, segmental, 673
  wedge, 673, 674
Respiratory care, 307, 317, 318
  literature review of, 301, 302
Respiratory care intervention labels, 311
Respiratory care studies, discussion of, 309
  findings in, 305–307
  methods in, 303–305
Resuscitation, 307–309, 319
Retina, 761–763
Retinitis, cytomegalovirus, 794, 795, 796
Retinopathy, human immunodeficiency virus, 794, 796
